About Us

We are specialists in the area of Medical Practice Management and Electronic Medical Records software. We currently serve hundreds of physicians, installing software and hardware systems in locations throughout the United States.

In order to serve our customers best, we utilize remote control software that allows us to see your computer screen and easily walk you through click-by-click as we answer your questions, and show you how to best utilize our software. Our Remote Control support helps us to help you, and as a result your questions get answered quickly and easily.

We are confident that you will find our staff friendly, knowledgeable, and easily accessible.
